

BeachTek

The Quiet Connection

DXA-2s

Dual XLR Compact Adapter

**Tiny, perfect adapter for
connecting microphones to today's
palm sized camcorders**

Sounds Great

with our DXA-2s Dual XLR Adapter from BeachTek.

Professional audio adapter works on any camcorder.

Lets you record like a "pro" without breaking the budget.

The original mini-solution for high quality sound and control.

Description

The BeachTek DXA-2s is a two channel, transformer balanced XLR adapter for today's small, compact camcorders. This adapter is designed to easily attach balanced or unbalanced type microphones to any camcorder with a MIC jack. The DXA-2s gives you all the benefits of using balanced audio devices for clean audio as well as control over the signal levels to ensure the best possible sound recording. The DXA-2s is very easy to set up and use. Its rugged construction ensures years of use and its compact size fits neatly under any camcorder - can also be mounted to any standard tripod. Since the adapter is a passive device, it is completely silent and the premium transformers ensure superb audio.

DXA-2s Features

- **Inputs** Two transformer balanced XLR connectors
One unbalanced mini-jack – ideal for wireless microphones
- **Output** Unbalanced stereo cable, terminating in a right angled, gold-plated mini-plug
Selectable MONO or STEREO
- **Trim Controls**
Adjusts signal level on each channel from unity to no output
- **MIC / LINE Switches**
Switchable input between MIC or LINE levels for versatility
- **Ground Switch**
Selects proper ground configuration to work on any camcorder
- **Balancing Transformers**
Premium wide-bandwidth transformers for superb audio
Shielded in a custom deep drawn mu-metal cover for very quiet operation
