

Fitted to GY-DV700W Camcorder Body

GY-DV700W with VF-A200 and VF-P116W

VF-A200

VIEWFINDER H-POSITION ADAPTER

ADVANTAGE

Whilst specifically designed with spectacle wearers in mind, the VF-A200 will be of interest any user who wishes to customise the ergonomics of their JVC Professional DV camcorder.

Provides adjustment of the space between the camcorder operators eye and viewfinder eyepiece, ensuring more comfortable on-the-shoulder positioning of the camcorder.

Provides a solution for users who would like to shift the camcorders balance further back on the shoulder when using larger/longer lenses.

Easily installed - All parts required for fitting are supplied.
