The Steadicam **Pilot**

CarbonLite Expandable Post

Secure Locking of Stage Plate via 4x Captive Screws.

Stage Plate has X-Y Vernier Adjustment.

Positionable Monitor, Gimbal and Battery Mounts.

Counter Weights for Balance

- 3.5" LCD monitor is standard, options include 5.8" 16:9 LCD monitor
- Stage plate is indexed so that the camera can be re-moved and re-mounted without the need to re-adjust balance
- 12V battery pack options are: "AA" battery pack, V-lock or Anton Bauer
- Stage can be easily accessorized with focus motor mount, additional connectors or dovetail type camera mounting plate
- Sled compacts down by removing lower cross tube
- True three axis gimbal
- Complete systems available

Lightweight Iso-elastic Arm

Low Profile Vest
